

Value and Texture

## **Design 1**

Adam Jacono

### **Goal**

Create a composition through the use of textured rubbings

### **Materials**

Glue stick

Sketchbook

triangle

fine tip sharpie

Ruler

Pencils - variety of hard/soft

x-acto knife

random magazine with pictures

### **Assignment**

Cut a 5" x 5" square in a piece of white paper (I'll provide) which will serve as a framing device to locate an area on your magazine. Choose a photograph on the magazine with a wide range of **values**.

In your sketchbook, precisely draw a 5" x 5" square. Match your rubbings to the value areas in the photograph, cut and paste them in the sketchbook's square; you may need to collect more rubbings.
